

7th Gulfcoast Orthopaedic Rehabilitation Conference

Westin Hotel Sarasota, Saturday August 26th, 2023

The Gulfcoast Orthopaedic Rehabilitation Conference is an event designed to bring orthopaedic surgeons, physical and occupational therapists together in an educational forum. Through a series of didactic lectures, leading area surgeons will discuss the treatment of various upper and lower extremity conditions and the role physical and occupational therapy plays in the management of these disorders. Multiple panel discussions allow for the therapists to interact with the surgeons, in an effort to have open question and answer sessions between sets of lectures. The goal of this course to provide continuing education for physical and occupational therapists and Continuing Educational Units (8 CEU's) can be claimed by those therapists attending this conference.
